Beautifully updated and thoughtfully designed, this Huntington Hills bungalow offers space, comfort, and functionality inside and out. The kitchen has been fully renovated with rich raised-panel cabinetry, granite countertops, a large island, and a custom pantry featuring upgraded shelving, herringbone tile flooring, and a stylish barn door. An engineered beam was added to create an open-concept main floor, flowing into a spacious dining area and a bright living room with a large bay window. Natural light fills the space, complemented by newer laminate flooring that ties the main living areas together. Just off the dining room, a handy office nook offers a convenient workspace. The generously sized primary bedroom includes a walk-in closet and a 2-piece ensuite. Also on this level is a second bedroom complete with a built-in closet organizer and a full bath. Downstairs, the basement is mostly finished and includes a remodelled half bath, two newer egress windows in the south-facing bedrooms, and a third bedroom that's perfect for an office or playroom. A large storage room with built-in shelving keeps seasonal items organized. Some ceilings and walls remain open, allowing for your finishing touches and added flexibility. Outside, enjoy a low-maintenance composite deck with a pergola, a gas line for your barbeque, a Roman-circle stone patio perfect for a firepit, and beautifully landscaped garden spaces in both the front and back yards. The oversized, heated, and insulated double garage features a newer garage door with a jackshaft opener for added ceiling height, and a large gate in the back fence offers RV parking potential. Located near schools, shopping, and a community association complex that offers affordable membership, this is a fantastic opportunity to own a home that blends thoughtful updates, outdoor enjoyment, and everyday convenience.

in a well-established NW neighbourhood.
