The property offers exceptional parking with a double front driveway, tandem side parking, RV space, and room for up to five or six vehicles, along with a detached garage that is finished, insulated, heated, and features 10 foot ceilings, making it an ideal workshop. Inside, the home offers a bright and open main level with hardwood and tile flooring and fresh paint completed in 2026. The kitchen features white cabinetry, tile backsplash, an eat up island, a JennAir gas cooktop with downdraft, built in oven, and large picture windows that fill the space with natural light. Upstairs, you will find three bedrooms and a four piece bathroom that was updated in 2016 with a new vanity, tub surround, flooring, and toilet. The primary bedroom includes a two piece ensuite, also updated in 2016, and offers space for a king sized bed. The lowest level includes a fourth bedroom with built in cabinetry and additional storage space, as well as a large storage room with a built in workbench and laundry. The hot water tank was replaced in 2025, adding peace of mind. The backyard is a standout feature, offering a large sunny space with a three
