A once-in-a-generation opportunity to own one of Bears paw's most significant land holdings. Ideally located just minutes from both Calgary and Cochrane, this remarkable offering combines an exceptional location, breathtaking Rocky Mountain views, productive agricultural land, and outstanding long-term investment potential. Offered for sale is a full quarter section (160 acres) and an adjoining 40-acre parcel (MLS A2335093), providing flexibility for a variety of ownership and investment strategies. Whether you are seeking a productive agricultural operation, an equestrian estate, a legacy family property or a strategic land investment in one of Alberta's most desirable rural communities, the possibilities are truly exceptional. The property is anchored by a spacious, original-owner residence built in 1969 with a 1974 addition that has been lovingly maintained and remains in good condition, offering comfortable living while preserving the character and history of the homestead. Supporting improvements include a historic dairy barn, quonset, and infrastructure ideally suited for a working cattle operation. The land features productive hay fields, quality pasture, and is well set up for livestock. Water resources are excellent, with two drilled water wells in addition to a Rocky View Water Co-op connection, providing both reliability and flexibility for agricultural and residential use. Positioned with road allowance along two sides, the property enjoys excellent access and future flexibility. The gently rolling landscape showcases spectacular mountain views, creating an extraordinary setting that is increasingly difficult to find this close to Calgary. Large contiguous land holdings in Bears paw are becoming increasingly rare.
