Click brochure link for more details. This thoughtfully designed home offers a blend of functionality and modern upgrades. The main kitchen has been upgraded with the chimney hoodfan option with an electric range, while the working kitchen features a gas range and sink rough-in, providing a chef-inspired space. The upper floor includes four bedrooms and two baths, both with double vanity sinks. The primary bath has been upgraded with a fully tiled shower, and features a 30" x 14" tiled niche. The main floor powder room has been upgraded from a pedestal sink to a vanity cabinet. The basement foundation has been upgraded to a 9ft foundation for added height. The basement also comes with a second laundry location and is ready to be developed or suited with all necessary rough-ins. Additional features such as an 8' tall front door, railing on the main stairs, LVP flooring, and a side entry enhance both style and practicality. With a 200 AMP electrical panel to support a future basement development, 40 AMP EV rough-in in the garage, and a gas line to the BBQ, this home is designed for efficiency and future-ready living.
